## ACETATE CLOTH TAPE

**Product Code: BT025**

**Description :** BT025(black & white) is a very tough acetate cloth coated with rubber-resin thermosetting pressure sensitive adhesive. Acetate cloth tapes are used only for moderate applications, due to the fact that they cannot exceed 120°C (248°F). Acetate cloth tapes are very conformable, hand tearable, printable and suited for varnish impregnation. The main application for these tapes is the outer wrap and identification of coils and relays.

**Features/Benefits :** Used in all types of fine wire coils and transformer where good strength characteristics, fine electrical properties and non-corrosion are desired. In construction and repair of electrical and electronic equipment. Provides aesthetic appearance to bobbin coils.
